JANUARY 2023**

REGISTER NOW

Transactional analysis

It is a form of modern psychology that explores an individual's personality and how this has been shaped by experience - particularly those stemming from childhood and examines a person's relationships and interactions.

Transactional Analysis has wide applications in clinical, therapeutic, organizational, personal development and, management. Whether you're in business, a parent, a social worker or interested in personal development, Eric Berne's Transactional Analysis theories, and those of his followers, will enrich your dealings with people, and your understanding of yourself.

How to register?

1. Make your payment in favour of the Finance Officer, payable at Canara Bank, Kadaganchi branch, Kalaburgi, Central University of Karnataka.
2. Click on the link to fill the registration form
<https://forms.gle/igetUDCKWDWzZy3q7>
