School of Social and Behavioural Sciences

Department of Psychology

A three-day National Skill Development Programme on Psychometric Test Construction course is designed to impart knowledge in the theory and procedure of scale construction in the field of psychology. This training would help scholars and academic professionals to develop psychometrically sound instruments appropriate for their research.

Objectives of the Workshop

- **To impart knowledge of fundamental concepts related to the psychological testing**
- **To demonstrate the procedures of the construction of the psychological test with suitable statistical analysis through hands-on training sessions**
- **To develop skills to evaluate the psychometric properties of the test**

Who should attend

Research scholars
Faculty members
Students
Researchers engaged in or interested in test construction

Central University of Karnataka, School of Social and Behavioural Sciences, Department of Psychology
