Message from the Hon'ble Vice-Chancellor

The Central University of Karnataka (CUK) was established by an Act of Parliament under the Central Universities Act, 2009. Since then, it has grown into one of India's fastest-growing centres of quality higher education. Guided by the National Education Policy (NEP) 2020, we aim to balance domain knowledge, practical skills, and value-based learning. We revise our curricula regularly so that our programmes stay relevant to global trends and to the needs of society.

Our faculty members are the strength of our University. They excel in both teaching and research and lead through innovation and collaboration. Teaching is supported by modern ICT tools, rich digital resources, and good infrastructure. Sophisticated Instrumentation Centre (SIC) was established, at a cost of ₹65 crore, to provide world-class research facilities. Its advanced instruments have greatly strengthened research across many fields of Science and Engineering.

Interdisciplinary and multidisciplinary learning is a key strength of CUK. New courses such as Indian Knowledge Systems (IKS), Artificial Intelligence, Data Science, and Environmental Studies have further enriched our academic offerings.

The University now has 194 regular faculty members, including 45 who joined this year, and nearly 300 regular and outsourced non-teaching staff. About 3,200 students from all over the country study here, making CUK a truly national institution committed to inclusive, quality education.

The campus spreads across 654 acres and has 11 Wi-Fi-enabled hostels with modern facilities, offering students a safe place to live and study. The air-conditioned Central Library holds more than 90,000 books and provides access to many e-resources, including One Nation One Subscription (ONOS). The campus also has a health centre, yoga centre, gyms, canteens, a bank, a post office, and a shopping complex.

Our faculty published 282 research papers in national and international journals indexed in databases such as Scopus and Web of Science during the year 2025-26; 46 books and 72 book chapters were authored by the faculty members. Research funding nearly doubled over the previous year, crossing ₹15 crores including ₹12.1 crore under the Anusandhan National Research Foundation – Partnerships for Accelerated Innovation and Research (ANRF–PAIR) project, along with individual projects funded by various agencies.

Our Training and Placement Cell continued to improve student employability through Campus Recruitment Training (CRT) programmes. Many of our students were placed in reputed organisations, and many others qualified in national-level examinations such as CSIR-NET, UGC-NET, GATE, and CTET.

We also invested in the growth of our faculty and staff. Faculty attended workshops on the Learning Outcomes-Based Curriculum Framework (LOCF). Non-teaching staff received training in administration, office procedures, and regulatory compliance under the iGOT Karmayogi

programme. These efforts have improved our overall performance and governance.

The University is deeply committed to protecting the environment. We have created and revived water bodies, planted a variety of saplings including fruit trees, and preserved existing greenery. As a result, the campus has become a green, peaceful space that supports biodiversity and learning.

In line with NEP 2020, CUK has signed several Memorandum of Understanding (MoUs) with national and international universities, research centres, industries, and public institutions, including Keysight Technologies and the Survey of India. These partnerships connect academia with industry and promote research, innovation, employability, and global engagement.

The Government of India has sanctioned ₹201 crore for new infrastructure. This includes two hostels for 500 students each (1,000 students in total), two new academic blocks for six science departments, and staff quarters. Construction is underway and progressing well.

We continue to strengthen our academic programmes in line with NEP 2020. This year, we started a five-year B.A. LL.B. programme to build legal education. We also introduced new master's programmes in Statistics and Data Analytics, Genetics and Genomics, and Library and Information Science, along with an M.Tech in Artificial Intelligence and Machine Learning. The Department of Life Sciences is being divided into two separate departments, Botany and Zoology, to allow deeper study and research. These new programmes attracted good admissions this academic year and bring our offerings closer to global trends, industry needs, and the nation's focus on innovation.

As a result of these efforts, CUK has been placed in the 151–200 band of the National Institutional Ranking Framework (NIRF) during the year 2025. The CUK ranked at 36th position in the category of Government Universities in the India Today's Best Colleges / Universities Survey 2026. This recognition raises our institutional profile and strengthens institutional commitment to quality education, research excellence, and the all-round development of our students.

I thank our faculty, staff, students, and all our well-wishers for their dedication and support, and I look forward to another year of growth and achievement.

ONE-DAY SYMPOSIUM

‘Union Budget 2026 is futuristic, designed to achieve Viksit Bharat’

EXPRESS NEWS SERVICE
@ Kalaburagi

THE Union Budget is futuristic and designed to achieve the Viksit Bharat dream, said Vice-chancellor of the Central University of Karnataka (CUK) Battu Satyanarayana. Speaking at a one-day symposium organised by the School of Business Studies, CUK, recently, Satyanarayan said that budget discussions are very important for students of Business Studies. "You need to analyse the budget and its impact on the Indian economy and business. Now, India has become a very strong economy in the world. You are very fortunate to be the working force in the present context, because you have more opportunities than our generation. Every citizen of the country has the responsibility to work for the development of the nation," he said.

Renowned economist and registrar R R Biradar has chaired the session and said that the Union budget 2026 has focused on three Kartavyas to accelerate and sustain economic growth, fulfil aspirations of youth, women, marginalised groups and farmers. "This is being achieved through building their capacity, ensuring accessibility to every citizen to resources, amenities and opportunities to visualise Viksit Bharat by 2047," he said.

He said that 17 cancer drugs and 7 rare disease medicines were exempted from basic customs duty which help many poor and common people. "The items such as mobile phones, electronics, microwave ovens, leather goods and footwear, electrical vehicles and batteries, sports equipment, seafood and fish feed are going to be cheaper due to reduction in the important duties," he added.

KKCCI president Sharabasappa Pappa said that though the budget is good for the country and its future, it has neglected this region. "We expected special packages and schemes for Kalyana Karnataka," he said. He also told students to participate in the Manthan Business Plan competition organised by the Federation of Karnataka Chamber of Commerce and Industries Bengaluru. Winners will get Rs 25 lakh cash prize.

Dean School of Business Studies Prof Panduranga V Patti delivered the introductory remarks and said this symposium is being organised to sensitise students about the Union Budget.

Prof Devrajappa spoke about revenue and public expenditures, Dr Shushma spoke on impact on agriculture, Dr Safia Parveen spoke about boosting health and education, Dr Ganapati B Sinnoor spoke about incentives to the manufacturing sector and Dr Sailaja Konek spoke about incentives to service sector.

4.4.2 Department of Geology

Head: Prof. M. Prashanth

The Department of Geology has good facilities and Laboratories to cater to the needs of Practical Course - Work of B. Sc. and M.Sc. students as well as for Research. Geology is the study of the Interacting Systems of the Solid Earth with the Atmosphere, Hydrosphere, and Biosphere as they evolve through time. The Programmers offered at the Department focus on the Scientific Study of the Earth. Geologists discover, develop, and responsibly manage Minerals, Energy, and other Earth Resources. Geological Knowledge enables us to ensure the Sustainable Development of Natural Resources and the use of these Resources responsibly.

The Programmers offered by the Department cover a wide range of Core Courses in Geology and allied subjects. It provides a Foundation for the Study of Fundamental Geologic Methods and Problems, both in the Laboratory and in the field. It includes Instruction in Geomorphology, Sedimentology, Hydro Geology, Geochemistry, Stratigraphy, Mineralogy, Petrology, Geo-statistics, Computational Geology, Geophysics, Remote Sensing, Environmental Geology, Economic Geology, Mining Geology and Geo informatics. These courses are designed such that they blend Traditional Basics of Earth Exploratory Sciences with the emerging Cutting-Edge Geo-Spatial Applications and Techniques so that the students are equipped with both Theoretical Constructs and Practical Applications of the subjects. The Department of Geology strives to achieve Academic Excellence and to produce Geoscientists with World-Class Training.

English Language Laboratory

The English Language Laboratory at Dept. of English, Central University Kalaburagi works with a clear vision: offer all students, whether from rural, semi-urban, or city backgrounds, and from many states and languages, a platform to learn appropriate English pronunciation and usage for better study and job opportunities. The mission is to give modern, computer-based English language learning knowledge, grammar practice that helps UG, PG, and Research Scholars build strong speaking, listening, reading, and writing skills. The lab has 40 latest and updated computers with headphones, LAN connectivity, a Smart board, and Visio Net English Language Laboratory software. These tools let students listen clear English, repeat words, record their voice, and get instant feedback. This helps them learn every day and academic vocabulary, use grammar correctly, and speak with confidence. In the lab, students practice at their own speed in a calm and supportive space. Such practice is useful not only for exams and research but also for interviews, presentations, and future jobs. By improving general and subject-related English, the lab supports both classroom learning and career growth for all students on campus.

4.7.5 Department of Linguistics

Head: Dr. Kota Sai Krishna

India's long and rich linguistic tradition, combined with its complex multilingual landscape, makes systematic language study both intellectually vital and pragmatically urgent. The Department of Linguistics is committed to training the next generation of scholars and practitioners to address national and regional priorities: documenting and developing minority and tribal languages, improving mother-tongue and second-language education, and promoting the use of Indian languages in higher education and science. Our curriculum offers grounding in core linguistic theories while enabling specialization in applied areas to enhance employability. Research and teaching focus on historical and comparative linguistics, descriptive and cognitive approaches, sociolinguistics, educational linguistics, and the study of endangered languages and Indian grammatical traditions. We emphasize the social dimensions of language—bridging linguistic marginalization, supporting integration of underprivileged communities, and responding to technological challenges like regional-language computing and natural language processing. Through

coursework, fieldwork, and interdisciplinary collaboration, the department equips students with the skills needed for language description, planning, pedagogy, and digital implementation, preparing them to meet India's present and future linguistic needs.

4.8 School of Life Sciences

Dean: Prof. N. Sathyanarayana

The School of Life Sciences at Central University of Karnataka was established in 2019, with a vision to provide high-quality education and research. The Department of Life Science is currently the only constituent of this school. The primary goal of the school is to develop and nurture highly motivated, skilled, future-ready human resources (undergraduates, postgraduates, research scholars, and postdoctoral students) to address scientific challenges in plant and animal health, agriculture, and the environment.

- **Department of Life Science**

4.8.1 Department of Life Science

Head: Prof. N. Sathyanarayana

The Department is supported by six faculty members with extensive teaching and research experience in frontier areas of biological sciences at nationally and internationally recognized institutions. The faculty have received several prestigious fellowships, awards, and travel grants. Committed to academic excellence, the department emphasizes critical thinking, experiential learning, and hands-on training to prepare students for successful careers in biological sciences. The Department offers a four-year B.Sc. (with or without Research), a two-year M.Sc., and a five-year Ph.D. programme in Life Sciences. Designed in accordance with the National Education Policy (NEP), the undergraduate programme provides flexibility to pursue multidisciplinary, interdisciplinary, and skill-based courses alongside the major discipline. The curriculum integrates fundamental knowledge with vocational, professional, and practical skills, enabling graduates to pursue higher studies or careers in Plant or Animal Sciences. The M.Sc. programme is one of the University's flagship programmes. The first year provides a strong foundation through courses in biochemistry, cell biology, biodiversity and systematics, ecology and evolution, molecular genetics, plant and animal physiology, analytical techniques, and ability enhancement. In the second year, students specialize in either Plant Sciences or Animal Sciences based on merit and preference, and undertake advanced coursework and a dissertation. The programme equips students with advanced knowledge, technical skills, and research experience, preparing them for higher studies and professional careers in academia, research, and industry. The Department also offers a five-year Ph.D. programme in its thrust areas of research. After completing the prescribed coursework in accordance with UGC regulations, scholars undertake independent research under the guidance of a faculty supervisor. The programme focuses on emerging areas of biological sciences, addressing local, national, and global challenges through innovative research. Scholars benefit from access to state-of-the-art laboratories and sophisticated instrumentation while developing scientific inquiry, innovation, professional ethics, and a commitment to societal advancement.

CUK CONFERENCE LINKS TRADITIONAL LAW WITH TECHNOLOGY

EXPRESS NEWS SERVICE
@ Kalaburagi

"BHARATIYA Nyaya Shastra's fundamentals are very strong and very adaptive to the changing times. Hence it has the capability to deal with the changing digital world," said Justice Dinesh Maheshwari, Chairperson, Law Commission of India and Former Judge, Supreme Court of India, New Delhi.

Inaugurating the one-day conference on "Yugadharma: Aligning Nyaya Shastra with Demands of Digital Era" organised by Department of Law of Central University of Karnataka at CUK, Justice Dinesh Maheshwari said that now digitalisation and technology is part of our life. This conference is the confluence of traditional legal knowledge with modern technology. We have to deliberate and discuss the convergence of Bharatiya Nyaya Shastra with modern technology for a better future, he said.

"Truth is the fundamental of our Nyaya tradition. Our Nyaya Shastra has transformed and evolved with the changing times. When we talk of Dharma, it is not iron or fossil, it is always fluid with time, space and circumstance. Ethics in the age of technology is very important and challenging. It is the time of innovation vs regulation, transparency vs privacy, freedom vs restrictions. In the age of technology discourse on temperament, equilibrium, efficiency, empathy, innovation, integrity, speed, sensitivity with speech go a long way. Whatever may be Artificial intelligence, it requires authenticity. Hence, authentic intelligence is more important than artificial intelligence. Hence, artificial intelligence should not be allowed to take away the authentic intelligence," Justice Dinesh said.

Judge at High Court of Orissa Justice Krishna S Dixit who participated as the guest of honour delivered the keynote address and said, "Bharatiya values are neither right nor left or at the centre, they are always at truth and truthfulness. Dr. B R Ambedkar emphasised on inclusion of India in the constitution. India has accommodated all the migrants from different religions and nations. Migrants have survived and flourished in India. This is Bharat, that's why it is introduced in the Indian constitution. When foreign rulers came to India, they treated us very badly. We need to understand the history of how India treated foreigners and how foreigners treated India. If we don't understand the history, we can't understand the Indian values. We Indians always believed in Sarve Jana Sukhino Bhavantu", he said.

Talking about the importance of Bharatiya values in constitutional success Justice Dixit said, "Countries like Pakistan, Bangladesh, Sri Lanka, Bharma had their constitutions. What happened to them? Why they committed legal suicide? Why is our constitution flourishing? All these because of the country's value system. Our constitution will survive as long as Bharatiya values are in the heart of the citizens. So whether it is digital age or AI age our constitution will survive. The day our values die our constitution will die," he said.

Justice Dinesh Maheshwari speaks at a conference organised by CUK on Friday

Presiding over the programme, Vice Chancellor of CUK Prof. Battu Satyanarayana said, "To be Vikasit Bharat by 2047, the fruits of the progress need to reach each and every Indian. We have to take Nyaya Shastra, Dharma Shastra and Artha Shastra to work with the digital shastra. Any country to transform social order and peace is very important. For that, we need a robust legal system and it depends upon the good advocates and judges. Hence we have started the five year BA LLB and LLM in our university."

5-yr integrated programme launched at CUK

EXPRESS NEWS SERVICE
@ Kalaburagi

AN advocate is a social engineer with the noble responsibility of uplifting the downtrodden and transforming society. Whatever knowledge you gain in this university should ultimately contribute to the country, society, and your family," said Judge of the Karnataka High Court Justice H.P. Sandesh.

Inaugurating the five-year integrated B.A., LL.B. programme approved by the Bar Council of India, for the academic year 2025-26 in the Department of Law at the Central University of Karnataka at Kadaganchi here on Thursday, Justice Sandesh urged the newly-admitted students to dedicate themselves to a common cause with sincerity and social commitment.

Justice Sandesh advised students not to be discouraged by the modest beginnings of legal practice. In the initial days, you may not have proper earnings, but do not be disappointed by comparing yourself with other professions. You have to work hard to earn name and fame, he said." He then advised the students to respect their profession.

Vice-Chancellor, Central University of Karnataka, Prof. Battu Satyanarayana, who presided over the function, stressed how honesty remains the cornerstone of advocacy. The Department of Law has launched Mission Nyayadrshti Samvad - a marathon series of 100 online lectures as part of Vision Viksit Bharat@2047.

ಪತ್ರಿಕೋದ್ಯಮ ವಿದ್ಯಾರ್ಥಿಗಳಿಗೆ ಮಾರುಕಟ್ಟೆ ಅರಿವು ಅವಶ್ಯ: ಶ್ರೀನಿವಾಸನ್

■ ಉದಯವಾಣಿ ಸಮಾಚಾರ

ಆಳಂದ: ಇಂದಿನ ಸ್ಪರ್ಧಾತ್ಮಕ ಮಾಧ್ಯಮ ಯುಗದಲ್ಲಿ ಪತ್ರಿಕೋದ್ಯಮ ವಿದ್ಯಾರ್ಥಿಗಳು ಕೇವಲ ಸುದ್ದಿ ಬರವಣಿಗೆಯಲ್ಲಿ ಸೀಮಿತರಾಗದೇ, ಮಾರ್ಕೆಟಿಂಗ್ ತಂತ್ರಗಳು, ಟಿವಿ ಮಾಧ್ಯಮದ ಕಾರ್ಯವೈಖರಿ, ಜನಪ್ರಿಯ ಚಲನಚಿತ್ರ ಮಾರುಕಟ್ಟೆಯ ಪ್ರವೃತ್ತಿಗಳ ಕುರಿತು ಸಮಗ್ರ ಜ್ಞಾನ ಹೊಂದಿರುವುದು ಅತ್ಯಗತ್ಯ ಮಾಡಿದೆ ಎಂದು ಜೀ ಕೇರಳಂ ಚಾನೆಲ್‌ನ ಮಾರ್ಕೆಟಿಂಗ್ ಮುಖ್ಯಸ್ಥ ಡಾ.ಶ್ರೀನಿವಾಸನ್ ಸುಬ್ರಮಣಿಯನ್ ಹೇಳಿದರು.

ಕಾಲೂರಿನ ಕರ್ನಾಟಕ ಟಿಬಿಯ ಕೆಲಬರಿಯಿಯ ಕರ್ನಾಟಕ ಕೇಂದ್ರಿಯ ವಿಶ್ವವಿದ್ಯಾಲಯದ (ಸಿಯುಕೆ), ಆನ್‌ಲೈನ್‌ನಲ್ಲಿ "ದಕ್ಷಿಣ ಭಾರತದಲ್ಲಿ ಟಿವಿ ಮಾಧ್ಯಮ ಮತ್ತು ಚಲನಚಿತ್ರ ಮಾರುಕಟ್ಟೆಯ ಪ್ರವೃತ್ತಿಗಳು ಮತ್ತು ತಂತ್ರಗಳು" ಎನ್ನುವ ವಿಷಯದ ಮೇಲೆ ನಡೆದ ಕಾರ್ಯಾಗಾರದಲ್ಲಿ ಮುಖ್ಯ ಅತಿಥಿಯಾಗಿ ಅವರು ಮಾತನಾಡಿದರು.

ಆಳಂದ: ಸಿಯುಕೆದಲ್ಲಿ ಹಮ್ಮಿಕೊಂಡಿದ್ದ ಕಾರ್ಯಾಗಾರವನ್ನು ಶ್ರೋಟಟ್ಟು ಸತ್ಕಾರಾಯಣ ಉದ್ಘಾಟಿಸಿದರು.

ಇಂದಿನ ಡಿಜಿಟಲ್ ಯುಗದಲ್ಲಿ ಮಾಧ್ಯಮ ಕ್ಷೇತ್ರ ವೇಗವಾಗಿ ಬದಲಾಗುತ್ತಿದ್ದು, ಪ್ರೇಕ್ಷಕರ ಆಸಕ್ತಿಗಳು ಕಾಲಾನುಗುಣವಾಗಿ ರೂಪಾಂತರ ಆಗುತ್ತಿವೆ. ಈ ಹಿನ್ನೆಲೆಯಲ್ಲಿ ಪತ್ರಿಕೋದ್ಯಮ ವಿದ್ಯಾರ್ಥಿಗಳು ಮಾರುಕಟ್ಟೆ ವಿಧಾನಗಳು, ಪ್ರೇಕ್ಷಕರ ಮನೋಭಾವ, ಕಂಟೆಂಟ್ ಪ್ರಸ್ತುತೀಕರಣ, ಪ್ರಚಾರ ತಂತ್ರಗಳ ಕುರಿತು ಅರಿವು ಹೊಂದುವುದು ಅತ್ಯಂತ ಅಗತ್ಯವೆಂದು ತಿಳಿಸಿದರು.

ಕಾರ್ಯಕ್ರಮದ ಉದ್ಘಾಟನೆ ಮಾತನಾಡಿದ ಸಿಯುಕೆ ಕುಲಪತಿ ಪ್ರೊ.ಟಟ್ಟು ಸತ್ಕಾರಾಯಣ, ಆಧುನಿಕ ತಂತ್ರಜ್ಞಾನ ಯುಗದಲ್ಲಿ ಕೌಶಲ್ಯಾಧಾರಿತ ಶಿಕ್ಷಣಕ್ಕೆ ಹೆಚ್ಚಿನ ಮಹತ್ವವಿದ್ದು, ಪತ್ರಿಕೋದ್ಯಮ ವಿದ್ಯಾರ್ಥಿಗಳು ಮಾರ್ಕೆಟಿಂಗ್ ತಂತ್ರಗಳು ಹಾಗೂ ಮಾಧ್ಯಮ ನಿರ್ವಹಣೆ ಜ್ಞಾನ ಪಡೆದುಕೊಳ್ಳುವುದು ಅವಶ್ಯಕತೆ ಹಿಂದಿಂದಿಗಿಂತಲೂ ಹೆಚ್ಚಾಗಿದೆ ಎಂದು ಅಭಿಪ್ರಾಯಪಟ್ಟರು.

ಇಂದಿನ ದಿನಗಳಲ್ಲಿ ಮಾರುಕಟ್ಟೆ ವಿಧಾನಗಳನ್ನು ಕೇವಲ ಟಿವಿ ಮಾಧ್ಯಮಗಳಲ್ಲಷ್ಟೇ ಅಲ್ಲದೆ ಪ್ರತಿಯೊಂದು ಕ್ಷೇತ್ರದಲ್ಲೂ ವ್ಯಾಪಕವಾಗಿ ಬಳಸಲಾಗುತ್ತಿದೆ. ಹೀಗಾಗಿ, ಪತ್ರಿಕೋದ್ಯಮ ವಿದ್ಯಾರ್ಥಿಗಳು ಜನಪ್ರಿಯ ಚಲನಚಿತ್ರ ಮಾರುಕಟ್ಟೆಯ ಪ್ರವೃತ್ತಿಗಳು ಹಾಗೂ ಮಾಧ್ಯಮ ತಂತ್ರಗಳನ್ನು ಅರಿತುಕೊಳ್ಳುವ ಮೂಲಕ ತಮ್ಮ ವೃತ್ತಿ ಜೀವನದಲ್ಲಿ ಯಶಸ್ಸು ಸಾಧಿಸುವುದೆಂದು ಹೇಳಿದರು.

ಸಾಮಾಜಿಕ ಮಾಧ್ಯಮಗಳ ಪ್ರಭಾವ ಹೆಚ್ಚುತ್ತಿರುವ ಹಿನ್ನೆಲೆಯಲ್ಲಿ ಪ್ರಿಂಟ್ ಮಾಧ್ಯಮದೊಂದಿಗೆ ಎಲೆಕ್ಟ್ರಾನಿಕ್ ಹಾಗೂ ಡಿಜಿಟಲ್ ಮಾಧ್ಯಮಗಳ ಮಹತ್ವವೂ ದಿನದಿಂದ ದಿನಕ್ಕೆ ಹೆಚ್ಚುತ್ತಿದೆ. ಹೊಸ ತಂತ್ರಜ್ಞಾನಗಳ ಒಳಿತೆ ಮೂಲಕ ತ್ವರಿತ, ನಿಖರ ಮತ್ತು ಆಳವಾಗಿ ಮಾಹಿತಿಯನ್ನು ಜನರಿಗೆ ತಲುಪಿಸುವ ಕೌಶಲ್ಯವನ್ನು ವಿದ್ಯಾರ್ಥಿಗಳು ಬೆಳೆಸಿಕೊಳ್ಳಬೇಕು ಎಂದು ಸಲಹೆ ನೀಡಿದರು.

ಸಿಯುಕೆ ವಿಶ್ವವಿದ್ಯಾಲಯ ವಿದ್ಯಾರ್ಥಿಗಳ ಸಮಗ್ರ ಅಭಿವೃದ್ಧಿಗೆ ಸದಾ ಮಾರ್ಗದರ್ಶನ, ಸಲಹೆ ಹಾಗೂ ತರಬೇತಿ, ಕಾರ್ಯಾಗಾರಗಳು, ಕೌಶಲ್ಯಾಭಿವೃದ್ಧಿ ಕಾರ್ಯಕ್ರಮಗಳನ್ನು ಹಮ್ಮಿಕೊಂಡು ಅವರನ್ನು ಸ್ಪರ್ಧಾತ್ಮಕ ಜಗತ್ತಿಗೆ ಸಿದ್ಧಗೊಳಿಸುತ್ತಿರುವುದು ಶ್ಲಾಘನೀಯ ಎಂದರು.

ಕಾರ್ಯಕ್ರಮ ನಿಕಾಯದ ಪ್ರೊ.ಬಸವರಾಜ ಕುಬಕ್ಕಿ ಪತ್ರಿಕೋದ್ಯಮ ನಿಕಾಯದ ಮುಖ್ಯಸ್ಥೆ ಡಾ.ಜಾಮಲಾ ರಾಮಸ್ವ ತರಬೇಕುದಾರೆ ಡಾ.ಶ್ರೀನಿವಾಸನ್ ಸುಬ್ರಮಣಿ ಉಪಸ್ಥಿತರಿದ್ದರು. ಡಾ.ಒಯಸಿಮ್ ಬೆದತೆ ಸ್ವಾಗತಿಸಿದರು. ಡಾ.ಕಾರ್ತಿಕ್ ಪರಿಚಯಿಸಿದರು. ಡಾ.ದೀಪ್ತಿ ವಂದಿಸಿದರು. ವಿದ್ಯಾರ್ಥಿನಿ ಸುರಕ್ಷಾ ನಿರೂಪಿಸಿದರು.

4.11 School of Physical Sciences

Dean: Prof. Bharat Kumar

The School of Physical Sciences started in the year 2012 with the Departments of Mathematics and Departments of Physics as its constituents. The primary goal of the school is to provide high-quality education in various domains of Mathematics and Physics at the undergraduate and postgraduate levels. The academic programs of the School of Physical Sciences are aimed at creating an environment that promotes research and innovation. The school is creating high-quality infrastructure in terms of well-qualified faculty, well-equipped laboratories, computational facilities and high-quality learning materials in various domains of Mathematics and Physics. This infrastructure would be utilized to create motivated young scientists and mathematicians capable of contributing to a "Knowledge Society". Towards this end, the School of Physical Sciences offers programs leading to M.Sc. and PhD degrees.

4.11.1 Department of Mathematics

Head: Prof. G Janardhana Reddy

The Department of Mathematics was established in 2012 as a constituent of the School of Physical Sciences. Mathematics is important for all the departments of CUK. The Department of Mathematics shares the vision of our university in striving for excellence in teaching and research. Currently the Department not only teaches various topics in Mathematics to undergraduate and postgraduate students of different engineering and science departments, but also runs its own UG, PG and Ph.D. programs in Mathematics. The curriculum of UG and PG courses are designed in a unique way to nurture future industry professionals and scientists. The frontier areas of research of the department include Fluid Mechanics, Number Theory, Computational Fluid Dynamics, Numerical Analysis, Functional Analysis, Fixed Point Theory, Modular Forms, Theory of Hydrodynamic Stability and Mathematical Theory of Control. The laboratories in the Department and the computer centre are equipped with modern facilities to provide a good work environment. The students are trained in several computer-programming languages like C, C++, and FORTRAN. They also gain exposure in handling problems through mathematical software like MATLAB, Mathematica, Python, Scilab, Maple, R etc.

The academic programmes of the Department are designed to attract motivated and talented students to the master's and doctoral programmes of the Department. The faculty strives to provide a stimulating learning environment for the undergraduate, post graduate and doctoral students of the Department. To meet these objectives, the Department is setting up excellent computer facilities, library facilities and provides good administrative support.

4.11.2 Department of Physics

Head: Prof. Rajeev S Joshi

The Department of Physics started in the year 2012 and has ever since been in pursuit of excellence in physics education and research. The department currently offers a 4-year B.Sc. Physics, M.Sc. Physics and Ph.D. programs. The department with 06 permanent faculties has its primary research activities focusing on soft-matter physics, spintronics, high energy physics, proton therapy, polymer physics and condensed matter physics. The department is gradually building its infrastructure with laboratories hosting research instruments like AFM, LB trough, X-ray diffractometer, closed cycle cryogenic system, sputtering unit, and a GPU server. Recently, the Department has forayed into the burgeoning area of artificial intelligence, device development, and membrane physics.

The major strength and highlight of the M.Sc. program is the project work/dissertation carried out by the students in the final semester. The students can opt to carry out their project work/dissertation at CUK or another institution in India in a field of their choice. The students present their work and submit a report at the end of their project. This training has helped students get first-hand experience of working in a research environment in addition to improving their scientific communication skills. Some of these projects have also resulted in peer-reviewed publications. As a result, more than 10 students have been placed in international Ph.D. programs and many others have joined premier institutions like IISc, IITs, and NITs. This reflects the outstanding training our students receive.

Another important educational initiative of the Department is the running of refresher courses in experimental physics supported by the Academies of Science. The Department has hosted three such courses so far and some of our faculties have been participating regularly as resource persons in many parts of the country. Our faculty have initiated national and international collaborations and regularly present their work in seminars and conferences. Specifically, the Department has been actively involved in India's 2000 Cr. mega-science project India-based Neutrino Observatory, and national initiatives like The Indian Nano electronics Users Program (INUP). To date, the Department, through its faculty, has received grants of over rs.70 Lakhs for carrying out research projects.

SYMPOSIUM EXPLORES NATHA YOGIS IN VIJAYANAGARA ART

EXPRESS NEWS SERVICE @ Kalaburagi

YOGIS—particularly Natha yogis—were depicted performing advanced asanas in Vijayanagara temple architecture, said Seth Powell, from Yogic Study Centre, California, USA.

He was speaking in the one-day International Symposium on "Natha Sampradaya in the Deccan: Early Development, Saiva-Buddhist Interaction and Artistic Expressions," organised by The Department of History & Archaeology, Central University of Karnataka, Kalaburagi in association with ICSSR, New Delhi on Thursday. He presented his research on "Yogi Sculptures in Vijayanagara Era Temples." Drawing from a decade of fieldwork across Hampi, Srisailam, Sringeri, and Shravanabelagola, he offered valuable insights into historical yoga traditions in the Deccan.

Vice Chancellor of Central University of Karnataka Battu Satyanarayan who presided over the programme, said that India's religious knowledge systems—across sects and regional traditions are widely studied in leading universities across the world. It shows clear evidence of India's profound intellectual heritage and universal [illegible] evance. We have to understand this and work for knowing our knowledge system and make use for [illegible] dia's development and universal brotherhood, he said. Dr. Ravi Khangni welcomed the gathering. Organising Secretary Dr. Vijay Sarde delivered introductory remarks. Dr. Abdul Majid proposed the vote of thanks.

This Department of Public Administration is the first regular University Department in Central Universities in South India and in particular a dedicated Department in the State of Karnataka for the Higher Education in Public Administration. The new emerging Program in Post-Graduation titled Public Administration and Governance is mainly focusing on balancing the Traditional Administrative and Organizational Theories at one end and changing Dynamics of State and Administration with new terms like Governance since the 1990s (Post-LPG era). Today the main focus of the Governance is, it might be profitable to look upon Government somewhat less as a problem of power and somewhat more as a problem of steering.

It is a unique integration of Concepts, Tools, and Techniques with stress on understanding the Philosophical concepts of Administrative Theories and Thinkers who contributed for effective and efficient Organizations at Public and Private Sector, Contemporary Debates in Public Policy Formulation, Implementation, Evaluation including the design and execution of Delivery Systems. Its thrust is on Interdisciplinary Approaches in Learning, Strategic Thinking, Global Orientation, Sensitivity, and Innovation. Librarian : Dr. P.S. Kattimani

The Central Library is one of the University's major central facilities, catering to the information and research needs of faculty members, research scholars, and students. The library has a collection of 89,933 printed text and reference books, 13,000+ e-journals through the One Nation One Subscription (ONOS) initiative, 07 print journals, and 5,513 e-books. The collection also includes reference books, textbooks, CDs/DVDs, dissertations, theses, magazines, and newspapers.

The Central Library is fully automated with RFID technology and has successfully implemented and integrated Koha 24.02 Integrated Library Management System (ILMS) for automating its in-house operations. The system supports key library functions such as acquisition, cataloguing, circulation, serial control, OPAC, and report generation, thereby enhancing operational efficiency and providing improved, technology-enabled services to library users.

WEB-OPAC (Online Public Access Catalogue)

WEB-OPAC is made available to provide bibliographic database resources with printed indexes. It supports a word-based search facility using Boolean operators to narrow a search to meet particular user needs.

Digitization Facility

A Web portal http://cuklibrary.ac.in has been created to maintain all e-resources and a digital library portal has been designed to facilitate the use of library users. The contents are accessible through remote access.

INFLIBNET E-SHODHSINDHU Membership

Central Library has access to 13,000+ e- journals through the One Nation One Subscription (ONOS). It has also implemented the IRINS portal facility. IRINS is a web-based Research Information Management (RIM) service developed by the Information and Library Network (INFLIBNET) Centre.

Central Library has also implemented Shodh-Chakra, which provides a unique space for the research scholars, supervisors, and university to manage the research lifecycle of a research scholar. The Central Library also uploaded the thesis in the Shodha Ganga repository.

Roles, Responsibilities and Key Functions

The Central Library serves as the academic knowledge hub of the University, supporting teaching, learning, research, and extension activities through quality information resources and user-centric services. During 2025–26, the library strengthened collection development, digital transformation, automation, research support, and information literacy initiatives.

The library acquired and organized print and electronic resources, including books, journals, databases, newspapers, and other learning materials. Library operations were enhanced through the Koha Integrated Library Management System (ILMS), D-Space Institutional Digital Repository, OPAC, remote access, and technology-enabled circulation and reference services.

A wide range of services, including circulation, reference, document delivery, current awareness, plagiarism detection, research assistance, institutional repository, and Book Bank services, were provided to students, research scholars, and faculty members.

Roles, Responsibilities and Key Functions

During the academic year 2025–26, the Yoga Section of the Central University of Karnataka conducted a range of activities to promote regular yoga practice and overall wellness among students, faculty members, and non-teaching staff. Regular yoga sessions were organised to encourage participants to develop healthy routines and improve physical fitness, flexibility, concentration, and mental well-being. The Section also facilitated yoga-related academic and elective learning opportunities for interested students and supported departmental yoga sessions as part of wellness and healthy lifestyle initiatives. Special sessions and awareness programmes were conducted on yoga, stress management, relaxation, meditation, and the importance of maintaining a balanced lifestyle. A major highlight of the academic year was the observance of the International Day of Yoga, through which students, faculty, staff, and members of the University community participated in collective yoga practice and awareness activities. The Section also encouraged participation in yoga-related competitions, demonstrations, and other campus-level activities to promote interest and wider participation. Outreach and community-oriented programmes were undertaken to extend awareness of yoga and wellness beyond the immediate University community. These initiatives provided opportunities for participants to understand and practise yoga in an accessible and meaningful manner. Overall, the activities undertaken during 2025–26 strengthened the University's wellness culture and encouraged students and staff to incorporate yoga, physical activity, mindfulness, and healthy lifestyle practices into their daily lives.
